(Correspondence of the Dispatch.) BLACKSBURG, VA., April 13.-Dr. J. M. McBryde, the president of the college, returned home last Friday evening. He did not arrive until nearly 8 o'clock. The battery, under command of Cadet-Captain John C. Dabney, was drawn up of a hill overlooking the main street of the town, and as he entered fired a salute of twelve guns as a welcome. They were surrounded by almost the whole corps. who gave three lusty cheers as he approached the college grounds. Dr. Mc-Bryde appears very much benefited by his trip, and has already settled down to hard work again. Both faculty and students are delighted at his return, for he is very greatly beloved by them, and no one can just exactly take his place with

Separated as they are from the many diversions of city life, the professors in the college seek in various ways relicf in light occupation from their arduous duties in the college. BICYCLE CRAZE. BICYCLE CRAZE.

It was thought that the bicycle craze had reached high-water mark last full, but the open weather of spring has routed all such ideas. We have bicycles in front of us, bicycles to the right of us, and bicycles to the left of us wherever we go. In fact, Montgomery county bids fair to rival Paris in this if in no other respect, SLOW MAILS.

The many readers of the Dispatch regret very much that it has been deemed expedient to discontinue the early morning edition, since now we receive the paper one day late, not getting Tuesday's paper, for instance, until 2 o'clock Wednesday afternoon, Many of us have been rearred on the Dispatch, as it were, and have learned to rely on it. The farmers of this section finished sowing their oats last week. The spring has been an unusually favorable one, though very late. Wheat and grass are looking capitally well, and if the present open weather continues cattlemen will be entirely relieved of the necessity of feeding in a few days.

Mr. Thomas Harvey, a very worthy citizen residing but a short distance from Blacksburg, was taken recently suddenly very ill with dropsy of the heart. His physician thinks his recovery exceedingly improbable. Mr. Harvey and his family have the loving sympathy of the whole community in his illness. It is sincerely hoped that he may yet confound all physicians' suppositions and recover.

There is near Blacksburg quite a famous little trout-stream. From its source in the mountain-side until it empties into Roamountain-side until it empties into Roa-noke river it is not more than three miles in length, and it is possible to step across it at almost any part of its course; and yet each year numbers of very fine trout are taken from it by those who are smart enough to do so. Last season one of the college professors caught a 3-pound trout. This is the finest that I have ever seen from this stream.

Mr. W. N. Cunningham, formerly instructor in the iron-works at the college shops, was more successful than any one else. Indeed, he rarely returned without a full basket, even when the most patient trial and cleverest artifices of others failed. By the way, it will be interesting to Mr. Cunningham's many friends to know that in Africa, whither he went from here, he is a highly-trusted mechanical engineer, commanding a salary of more than \$4,600 per annum. He is a native of Farmville, Va., and graduated from this college in about 1855, and is now only 29 years of age.

Of D. MELLIN, TEACHER

olld-Field Teacher.

Captain David J. Bigger died at an advanced age last week at his home, near this place. He is the last of the old-field school-teachers of former times. He was considered a first-class teacher in his day, and there are many men, now old, scattered in every direction, who kindly remember their old teacher, the log school-house with but a single window, backless benches, the long switch, and cherminy and marbles. Captain Bigger was highly esteemed, and lived where he was born all his life. His class of men have almost disappeared, but the fundamental principles of education implanted by the teacher of the olden time were far more thorough and lasting than by the hasty and superficial instruction of the present public schools. At least, all old people say so, Mr. Saulsbury, of Richmond, O., purchased a farm near here this week for Si per acre. He intends to remove here with his family. ITS HOLIDAY OBSERVANCES OF EARLY AND RURAL ORIGIN.

Cavaller and Dutch Customs Still Exist in Virginia-A Season of Glad Renewal Which Makes the World Better and Happier.

These three emblems of the season, rural in themselves, seem to denote that the early observance of to denote that the early observance of the festival, apart from its religious character, was of rural origin. The gift-giving of eggs comes from an old custom of the Persians, who exchanged eggs at the heginning of their agricultural year in token of a renewal of vernal life. In rural Virginias and throughout the South Easter was known as "de fust holiday" by the old-time plantation slaves. It was always allowed them by the master and mistrees, and kept by the happy darkies with great rejoicing. with great rejoicing

YET EXTANT.

Many Easter customs brought over by the Cavaliers, or, possibly, by the Dutch settlers of the Vailey, are yet extant about here. Country Easter-eggs are gaily colored by wrapping them in flowered calico and boiling them until the colors fade. Dyes made of hedigo or of the purple peels of onions are also used, and eggs fancifully decorated by tchings drawn with a greased stick, sharpened to a point, show a delicate tracing of the white shells beneath. These homemade productions are as beautiful and give more real pleasure to the children of a family than the gilded and anad-painted designs in city stores. Farmers' children make nests of moss and fill them with colored eggs. These they hide in out-of-the-way places; if the weather is warm enough, generally about the woods. At the cry, "The Easter-rabbit has come," they all scamper away for an egghights—the smaller ends pitted against each other until one is broken—when the victor scoops out the other's egg and eats it with much satisfaction. But it is not all eggs. There are pies, Easter-pies, germane to the season. These are small-YET EXTANT. not all eggs. There are pies, Easter-pies, germane to the season. SOMETHING NEW. The country girl is not so anxious about her "Easter hat" as the city belle, but to be lucky something new must be worn. To this popular superstition as old writer refers:

"Laste Easter I put on my blue Frock-coat the first time vier new, Wi yaller buttons all o' brass That glinted in the sun like glass, Eekase 'twas Easter Sunday."

BEDFORD CITY, April 13.—(Special.)— The decision of the Court of Appeals is regard to the suit of the Bedford Public High School against the supervisors of the county is awaited with much interest by both the friends and opponents of the school. The building used was erected under the auspices of the Baptiat Church, as the Jeter Institute for Young Ladies, but not proving a success was purchased by the School Board for the High School. The building is beautifully located on one of the high hills that surround the town, facing Randolph-Macon Academy. While it does not possess the same beauty of serchitecture es the academy, it is most conveniently arranged within, and is surrounded by tress, which add greatly to comfort in summer, besides adorning the extensive grounds. There are now seventy-five pupils in attendance, about twenty of whom are teachers of county schools, whose sessions having closed, they are availing themselves of the course of instruction. The school is under Professor M. N. Starke, an A. M. of Randolph-Macon College, as principal. Professor W. S. Graves, who is a Master of Arts of the Washington and Lee University, besides having had a two-years' course at the Johns Hopkins, is instructor in Latin, and his classes are doing fine work. Miss Deane Johns, who is a teacher both by profession and inspirating, being like poets not made but born, is a graduate of Ann Arbor, and has had a large experience as an instructor. She inspires her pupils with the enthusiasm that she feels in her work. In imparting information she gives a reason for every principle she advances, and makes learning a pleasant task. Her class in physical culture have attained much proficiency. She explains the physical advantage of each movement, so that the benefit is two fold. That a school with such advantages should cease seems a great pity. Besides the regular school course there is the Department of Music, with Miss Rosalle Smith as teacher, who has had a large and successful experience, and a course at the Conservatory of Music of New York. The Boarding Department is under the management of Mrs. L. D. H at the Conservatory of Music of New York. The Boarding Department is under the management of Mrs. L. D. Haymond, whose skill as a housekeeper has been tested by many, both at her own home and the Chicago Exposition. It is rather a singular fact that several of the most violent opposers of the school have children in attendance upon it.

EASTER PROGRAMME. St. John's church has been beautifully decorated with fragrant flowers and growing plants, snowy azalias, palms, and many other treasures of the greenhouses of ladies of the church, lent to do honor to the joyous Easter festival of the church. The following is the programme: Easter Anthem in D (Tours); Te Deum in E flat (Lloyd); Jubilate in C (J. C. Minor); Offertory in C. M. and M; Alleluia to Our King (Roekel). St. John's church has been beautifully King (Rockel).

MODLIN GETS A NEW TRIAL.

The Result of the Bad Memory of a Talkative and Vicious Juror.

DANVILLE, VA., April 13 .- (Special.)-Jacob E. Modlin, who murdered his wife on February 9th, in Neapolis, and who was found guilty of murder in the first degree on Wednesday evening last, gets a new trial, and all on account of a juror swearing that "he had not found, formed, or expressed an opinion," but formed, or expressed an opinion," but who had spoken too much after the killling, and did not seem to remember it when sworn. Several parties made affidayit that they had heard John E. Lewis, the juror referred to, say "that Modlin ought to be hanged, and that if he was put on the jury he would hang high," and on being summoned in court to-day swore to their affidavits. Lewis was then sworn, and said in effect that he had sworn, and said in effect that he had merely expressed in idle conversation an opinion. It was not a decided opinion, was not based on any testimony, for he had not read an account of the Coroner's partial trial. At the time he expressed the careless opinion he had not heard the question of Modiin's sanity raised. He never knew that question would be raised never knew that question would be raised until the trial commenced. Judge A. M. Alken said it would be very wrong to enter up judgment upon the verdict of a jury on which there was an incompetent juror. He had not only expressed an opinion, but he seemed vicious, and indicated malice. Not only that, but he acknowledged that when he was examined in court as to his competency he was well aware that he had expressed such opinions, "Therefore," said the Judge, "I set the verdict aside and grant the prisoner the verdict aside and grant the prisoner a new trial." Chandler, whose life is at stake, main-

tains a cool and calm air, and has not exhibited any uneasiness as to the result of the trial. The testimony was concluded to-day, and Mr. R. T. Thorp, Commonwealth's Attorney, opened the argument for the prosecution. Thorp is a lawyer of ability, and made a powerful argument before the jury. Three speeches will be made for the defence by some of the best legal talent here, after which Mr. Thorp will close for the prosecution. It is now thought by spectators that the jury will disagree, and that no decision of this murder case will be reached at this term of the court. While driving a spirited steed yesterday afternoon Mr. Thomas F. Goode, Jr., and Miss Bettle B. Finch were violently thrown from the buggy, and both sustained slight injuries as the result of an accidental runaway.
